EDUCATION

- **Indian Institute of Information Technology, Design and Manufacturing Jabalpur**   Dec 2021 - Aug 2025
  Bachelor of Technology - Computer Science   **CGPA:** 8.4/10
  Courses: Operating Systems, Data Structures, Analysis of Algorithms, Database Management Systems, Data Science, Networking, NoSQL

TECHNICAL SKILLS

- **Languages:** C, C++, JavaScript, MySQL, MongoDB, Redis, HTML, CSS, Java

- **Frameworks:** NodeJS, ExpressJS, ReactJS, Redux

- **Databases:** SQL, MongoDB, PostGreSQL

- **Tools:** Git/GitHub, GitHub Actions, Figma

EXPERIENCE

- **FusionIIIT**   Dec 2023 - Apr 2024
  Group Project

  - Collaborated on a group project, demonstrating effective teamwork.

  - Managed the HR module, overseeing employee records, leave administration, concessions, and benefits. Coordinated tasks related to foreign service books, LTC, CPDA, and employee appraisals.

  - Utilized Django for backend development and HTML/CSS Bootstrap for frontend design to ensure user-friendly interfaces and seamless functionality.

  - Preparing to launch the project to students and gain insights into effective traffic management.

PROJECTS

- **TourManager**   Source Code
  Express, Pug, HTML, CSS, Nodemailer, Stripe API, MongoDB, NodeJS

  - Elevated tour management using the MERN stack to effortlessly organize or register tours.

  - Implemented robust user authentication, a secure payment system, and tour reminders, offering a seamless experience for tourists and organizers alike.

- **AllGoodsHub Platform**   Source Code
  Express, ReactJS, Nodemailer, Stripe API, MongoDB, NodeJS

  - Developed and managed essential e-commerce features, including shopping carts, order processing, payment gateways, and more within a MERN stack environment.

  - Ensured the secure handling of financial transactions and user data, and integrated APIs for shipping and other functionalities.

- **URL Shortener**   Source Code
  Express, NodeJS, MongoDB

  - Efficient URL Management: Provides a reliable service to shorten long URLs, making them easier to share and manage.

  - Customizable Short Links: Allows users to create custom short links for better branding and memorability.

ACHIEVEMENTS

- Solved 700+ coding questions across all coding platforms, including LeetCode and CodeStudio.

- CodeForces Pupil ranking with a peak rating of 1273, and CodeChef rating of over 1500.

- Selected in HackOn with Amazon, advanced to round 3 among the top 100 teams out of 12,000+ teams.

- Top 10 in IIT Roorkee techfest Cognizance's INNOWAVE competition.

- Top 25 fastest coders in HackOn with Amazon Season 4.
